

## **We Artspace Lifespace declare a Climate and Ecological Emergency**

We pledge to work with and support our community and local government in tackling this Emergency, and we call on others to do the same. The Emergency endangers our ability to deliver Artspace charitable objectives because art won't be a priority when artists and others are fighting just to survive.

*These are our intentions:*

### **1. We will use our position to raise consciousness**

We will communicate with tenants and users of our space and support them to discover the truth about the Emergency and the changes that are needed.

### **2. We will take Action**

We pledge to work towards reducing our emissions.

We will challenge policies and actions of local and national governments and their agencies, where we interact with them, that do not help to reduce emissions or consumption levels.

We will actively work to imagine and model ways that our organisation can work with others to regenerate the planet's resources.

### **3. We are committed to Justice**

We will do what is possible to enable dialogue and expression amidst our communities about how the Emergency will affect them and the changes that are needed.

We believe that all truth-telling, action and democratic work must be underpinned by a commitment to justice based on intersectional principles, led by and for marginalised people.
